## MOONSHOTS AND SNAPSHOTS OF PROJECT APOLLO: A RARE PHOTOGRAPHIC HISTORY

University of New Mexico Press. Hardcover. Condition: New. 272 pages. In this companion volume to John Bisney and J. L. Pickerings extraordinary book of rare photographs from the Mercury and Gemini missions, the authors now present the rest of the Golden Age of US manned space flight with a photographic history of Project Apollo. Beginning in 1967, Moonshots and Snapshots of Project Apollo chronicles the programs twelve missions and its two follow-ons, Skylab and the Apollo-Soyuz Test Project. The authors draw from rarely seen NASA, industry, and news media images, taking readers to the Moon, on months-long odysseys above Earth, and finally on the first international manned space flight in 1975. The book pairs many previously unpublished images from Pickerings unmatched collection of Cold War-era space photographs with extended captions--identifying many NASA, military, and contract workers and participants for the first time--to provide comprehensive background information about the exciting climax and conclusion of the Space Race. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Hardcover.
