PLANET-CENTERED ASTROLOGY

American Federation of Astrologers. Paperback. Condition: New. Jack Cipolla (illustrator). 170 pages. Dimensions: 9.1in. x 7.5in. x 0.5in. Amplify Your Astrological Perspective With Planet-Centered Astrology The entire solar sphere is full of bodies, and each of them in some degree has an effect upon the whole. There are more than 115 of such bodies to be reckoned with, and all are at varying stages of vibratory impulse. They have definite orbits, they turn upon their axis, they draw their life and substance from the Sun, but they have not yet been considered factors of moment. Alice Bailey, A Treatise in Cosmic Fire Astrology is founded on the premise that the planets embody and exemplify archetypal concepts. The gods themselves, for whom the planets are named, were projections of human qualities onto deities. Each planet's perspective includes its moons or asteroid companions. Why should we study astrology from each planet's perspective To find direct expressions of each planet at your time of birth To distance personal ego from the equation To appreciate your own planet-centered charts To discover clear choices alternatives that have been there all your life To become acquainted with energy allies for personal growth and spiritual understanding To amplify your understanding of the diversity of planetary perspectives To explore Unity of multiple energies entering your awareness With planet-centered alternatives you may adopt a transpersonal perspective and transcend the limitations of personal biases to embrace your greater potential. Stephanie Jean Clement, PH. D. holds a doctorate in transpersonal psychology and has taught topics as varied as hypnotherapy, astrology, Tarot, and meditation. Professionally certified by the American Federation of Astrologers, she has consulted and written for over thirty five years. Her published books include Power of the Midheaven, Dreams: Working Interactive, Meditation for Beginners (available in thirteen languages), The...
