Reviews

It becomes an awesome publication that I actually have actually read. It really is written in simple terms and not difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Excerpt from Commencement Exercises: Academy of Music, Wednesday Evening, May Thirty-First, Nineteen Hundred and Five at Eight O clock The building has also been improved by the introduction of a large window in the main drawing room on the first floor and by some important work in the wing occupied by the d104ile School, including more adequate heating and ventilating of the dye house. Several valuable additions to the equipment of both the Art and d104ile departments have been made. In the case of the Art School these consist largely of casts and photographs, and in the d104ile School, of much new machinery in the Spinning, Dyeing and Weaving-departments, especially in that of Jacquard Weaving, which has been much strengthened and developed, so that a considerable advance in the production of the highest class of fabrics, in which the design is most distinctly artistic, has been achieved. In this development of the work of the d104ile School in the direction of combining with its practical aims the methods and ideals of the School of Applied Art, most efficient service. And generous support has been rendered by the Associate Committee of Women. The additional demands upon the power plant which the growth of the d104ile School has necessitated have been partly met by the installation of a new gas engine. This relief is only partial, however as quite apart from any question of power the old boilers and boiler house badly need to be renewed and reconstructed in the interest of economy and efficiency of the heating system, and such a renewal is among the most urgent of the present needs of the School.
