

Screening of Chiral Diels-Alder Catalysts by Mass Spectrometric Monitoring of the Retro Reaction

By Antje Maria Teichert

Cuvillier Verlag Dez 2007, 2007. Taschenbuch. Condition: Neu. Neuware - Rapid catalyst screening for enantioselective Diels-Alder reactions was accomplished by mass spectrometric monitoring of reaction intermediates of the retro-Diels-Alder reaction. Copper catalysts as well as metal-free organocatalysts were tested. Furthermore, a protocol for simultaneous screening of catalyst mixtures was developed, offering new possibilities for high-throughput catalyst development. 226 pp. Englisch.
