Createspace Independent Publishing Platform, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.This book contains proven steps and strategies on how to build your own hydroponic garden system. Did you ever think about growing your own fruits and vegetables, but eventually gave up because it takes too much space? Do you think that except soil-based methods, all other methods are expensive? Then this guide is for you. Hydroponics offers many advantages to traditional soil-based horticulture. Besides costing less, other advantages include better control over many of the limiting factors, such as temperature, water, light, and pests, and rare opportunity to grow plants in winter. Based on the latest research, this comprehensive yet concise book on hydroponics gives you step-by-step guidance on how to grow lettuce, celery, tomatoes, cucumbers, grapes, strawberries, cantaloupe, watermelon and various herbs such as rosemary, basil, and oregano in your backyard or inside your home.
