They have used information gleaned from their own clinical practices and from studying medical research to design an eating program that will improve participants energy levels, help them lose weight, and make improvements in their overall general health. Their book, It Starts with Food: Discover the Whole30 and Change Your Life in Unexpected Ways, describes their program, the Whole30 and the theories and observations on food and health that led to its creation. The Hartwig s program, the Whole30, is designed to instigate lifelong change. The centerpiece of the Whole30 lasts only thirty days. This is a thirty day elimination phase during which participants must eliminate all unhealthy foods from their diet and eat only healthy foods. After elimination, participants then slowly reintroduce various food groups into their diet during the reintroduction phase.
