DATA MINING AND KNOWLEDGE DISCOVERY FOR PROCESS MONITORING AND CONTROL

Springer London Okt 1999, 1999. Buch. Condition: Neu. Neuware - Modern computer-based control systems are able to collect a large amount of information, display it to operators and store it in databases but the interpretation of the data and the subsequent decision making relies mainly on operators with little computer support. This book introduces developments in automatic analysis and interpretation of process-operational data both in real-time and over the operational history, and describes new concepts and methodologies for developing intelligent,...
