ARCHITECTURAL ACOUSTICS

Condition: New. Publisher/Verlag: Springer, Berlin | Blending Sound Sources, Sound Fields, and Listeners | Proceeding from basic theory to design studies of concert and multiple purpose halls, the author introduces a remarkable seat selection system for the analysis of new and existing halls, and proposes a diagnostic system for testing the physical properties and calculating the psychological attributes at any seat after a hall is built. The book also presents a theory of subjective preferences, based on a model of...
