Orion Publishing Co, United Kingdom, 2018. Hardback. Condition: New. Language: English . Brand New Book. Julia Buckley needs a miracle. Like a third of the UK population, she has a chronic pain condition. According to her doctors, it can't be cured. She doesn't believe them. She does believe in miracles, though. It's just a question of tracking one down. Julia's search for a cure takes her on a global quest, exploring the boundaries between science, psychology and faith with practitioners on the fringes of conventional, traditional and alternative medicine. From neuroplastic brain rewiring in San Francisco to medical marijuana in Colorado, Haitian voodoo rituals to Brazilian spiritual surgery, she's willing to try anything. Can miracles happen? And more importantly, what happens next if they do? Raising vital questions about the modern medical system, this is also a story about identity in a system historically skewed against hysterical female patients, and the struggle to retain a sense of self under the medical gaze. Heal Me explains why modern medicine's current approach to chronic pain is failing patients. It explores the importance of faith, hope and cynicism, and examines our relationships with our doctors, our beliefs and ourselves.
