In view of the significant progress made at the un. Recently in developing an agreement to address the us. Objections to the deep seabed mining provisions of the Convention, part XI, I am hopeful that the administration will be in a position to support the Convention and agreement, and to transmit them to the Senate for advice and consent later this very year. In the turbulent aftermath Of the cold war, we are witnessing an increasing possibility that the world s oceans could become the sub ject of disputes, endangering many security and economic interests of our Nation.
