LAP Lambert Academic Publishing. Taschenbuch. Condition: Neu. Neuware - It is true that thermal buckling is a large problem, but the method to calculate thermal buckling is actually a bigger problem for researchers. Where most of the researches examined the problem theoretically and programmatically, and this does not match the real circumstances. This book is distinguished in terms of subject matter and content. It is a comprehensive scientific study of Nanocomposite and the problem of thermal buckling. It discusses the determination of the thermal buckling of multiple cases and control it, in an innovative practical scientific method ,and a systematic comparison of the theoretical calculations of the problem. The properties, composition and impact of Nanocomposite are studied in a practical manner detailed. It is therefore a useful book for engineering and science professionals and those interested in scientific knowledge. 120 pp. Englisch.
