Excerpt from State and Federal Marketing Activities and Other Economic Work, Vol. 12: January 6, 1932 Seventy - five North Dakota flock owners in 25 counties are operating in a poultry flock record keeping project with their local county agents and the extension service of North Dakota Agricultural College. The project began November 1 last and has for its purpose the increasing of poultry profits, being designed to aid producers in improving management methods and to demonstrate the effect of such improvements on flock incomes. Approximately 16,000 birds are included in the 75 flocks. Detailed records are being kept by each producer, including egg production, sales of eggs and poultry, value of products consumed, losses and feed cost. Reports are submitted monthly to county agents, and a complete summary of all the records is prepared by the college. Suggestions for increasing the profitability of the flocks through improved feeding and management methods are given each cooperator.
