

## Telecommunications Systems Engineering (Paperback)

---

By William C. Lindsey, Marvin K. Simon

Dover Publications Inc., United States, 2011. Paperback. Condition: New. New edition. Language: English . Brand New Book. This classic graduate- and research-level text by two leading experts in the field of telecommunications is essential reading for anyone working today in space and satellite digital communications and those seeking a wider background in statistical communication theory and its applications. Ideal for practicing engineers as well as graduate students in communication systems courses, the book clearly presents and develops theory that can be used in the design and planning of telecommunication systems operating with either small or large performance margins.
