

## Maps and Mapping Skills: Understanding Local Maps (Paperback)

By Jack Gillett, Meg Gillett

Hachette Children s Group, United Kingdom, 2010. Paperback. Condition: New. UK ed.. Language: English . Brand New Book. Reading and interpreting a variety of maps is an important geographical skill and enquiry method. Maps and Mapping skills is a series that looks at basic and intermediate geographical skills involved in map reading and map making. By translating the three dimensional into two, children are encouraged to hone their thinking skills and spacial awareness, and consider the presentation of complex information into a logical and usable map. This will provide a useful introduction to reading atlases as well as basic map skills for KS3. Will contain questions/activities throughout to encourage children to practice map reading, understand concepts from scale to population density, and to learn to use maps for particular purposes.

### Reviews

*A must buy book if you need to adding benefit. It is really simplified but shocks in the 50 percent of the pdf. I found out this pdf from my i and dad recommended this publication to learn.*

*This book might be worth a read, and superior to other. Of course, it really is engage in, still an interesting and amazing literature. It is extremely difficult to leave it before concluding, once you begin to read the book.*
