Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Laboratory Experiments in Chemistry: To Accompany Black and Conant s Practical Chemistry This book has been arranged to accompany black and conant s New Practical Chemistry. The directions are framed primarily to meet the needs of students who are studying the subject for the first time. These experiments are the result of the author s long experience as a teacher of beginners in chemistry. Laboratory work in any science is fundamental, and the study of a textbook merely extends and organizes the information that the student gets in the laboratory. The experiments which the student does with his own hands Should make the fundamental principles of the science real and concrete to him. It is also essential for him to perform certain experiments which will indicate how these facts and principles are utilized at home and in the commercial and industrial life of the community. The directions are at first very full and detailed, but they are gradually abbreviated in order to leave more and more to the student s own initiative and imagination. It is hoped that they are so clearly stated and illustrated that the teacher will be largely freed from the necessity of repeating the details of manipulation. Frequent questions (in italics) have been inserted in the directions to focus the attention Of the student on the important facts to be observed. One of the aims of all laboratory work is to arouse the stu dent s enthusiasm for finding things out by experiment. To encourage this spirit, additional experiments, which are marked Optional, have been included. These may well be used to give elasticity and variety to the laboratory work as well as to emphasize the close...
