

Internet Crimes Against Children: An Annotated Bibliography of Major Studies

Filesize: 3.29 MB

Reviews

The book is great and fantastic. It is rally exciting throgh reading time period. I am pleased to let you know that this is basically the greatest ebook i actually have go through inside my very own life and may be he best book for possibly.

(Mr. Hyman Ankunding DDS)

INTERNET CRIMES AGAINST CHILDREN: AN ANNOTATED BIBLIOGRAPHY OF MAJOR STUDIES

Createspace, United States, 2014. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.Research conducted relative to Internet crimes against children can be grouped into several subtopics: unwanted solicitation for sexual contact or pictures; pornography (children as the subject); harassment and bullying; and unwanted exposure to sexually explicit material. Many of the studies described in this document have been conducted by researchers affiliated with the Crimes Against Children Research Center at the University of New Hampshire who extrapolated data from the First (2000) and Second (2005) Youth Internet Safety Survey. These surveys canvassed a nationally representative sample of 1,500 youth ages 10 to 17 to determine the incidence and risk factors of youth exposure to sexual material on the Internet. Researchers also extrapolated data from the National Juvenile Online Victimization Study, which was intended to estimate the incidence of Internet sex crimes against minors occurring during a one-year period (2000-2001) that were known to law enforcement officials. This bibliography reviews the findings of the studies conducted using these surveys, as well as other surveys conducted for the purpose of identifying the patterns and frequency of criminal use of the Internet involving children. The bibliography also reviews the results of focus-group studies, literature reviews, and reports commissioned by the U.S. Congress. The purpose of the studies, surveys, and reports reviewed herein was multifaceted. Researchers primarily sought to determine how frequently children view sexually explicit material online and are approached for sexual activity online, as well as the demographics of the vulnerable populations. They also wanted to identify what specific crimes were being committed, and by whom, the role law enforcement plays in curtailing and preventing these activities, and what influence pornography and sexualized material have on the moral values and sexual attitudes...
