Interventions to Improve Cardiovascular Risk Factors in People with Serious Mental Illness: Comparative Effectiveness Review Number 105

By U S Department of Health Human Services, Agency for Healthcare Research and Quality

Createspace, United States, 2013. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.Serious mental illness (SMI) is defined generally as a major mental or behavioral disorder, causing substantial impairment in multiple areas of daily functioning. SMI affects about 4 to 8 percent of adults and includes disorders such as schizophrenia and bipolar disorder but not isolated substance abuse or developmental disorders. Individuals with SMI have shortened life expectancies relative to the general population to an extent that is not explained by suicide and accidents alone. This population experiences higher rates of morbidity from multiple general medical conditions, including diabetes and cardiovascular disease (CVD). Among patients using the public mental health system, heart disease was the leading cause of death. This excess of CVD-related mortality may be due to a number of factors, including direct effects of the illness, medications used to treat SMI, modifiable behavioral risk factors, and disparities in access and quality of health care. The review was designed to evaluate strategies to improve CVD risk factors in adults with SMI. SMI has been defined variously by different groups over time. For the purposes of this evidence review, people...
