Not illustrated. 1854 Excerpt: . the preceding question, were the process to be once more repeated, and at last n quarts remained 1 16. The sum of 3 times one number and 7 times another is equal to 58; 7 times the first number and 3 times the second is equal to 42. What are the two numbers? 17. Find two numbers, such that the first is to the second as their sum: 5, and as their difference: 3. 18. What would be the solution of the preceding question, if for 5 and 3, the general signs a and b were substituted? 19. A man has two vessels full, and one empty and larger than each of the other two. To fill the empty one, either the contents of the first, together with a fifth of the contents of the second, are necessary, or the contents of the second, together with a third of the contents of the first. The three together would contain 1440 gallons. What would each hold? 20. Two bodies are distant d feet. If they are moved towards each other with equal swiftness they will meet in m seconds; if they are moved, however, with the same swiftness one after the other, they will meet after n seconds. How many feet must each body, move over in a second? 21. Two bodies, B and C , approach each other from two points, distant d feet. If B sets off t seconds sooner than C , they meet...
