Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.47 Alzheimer s Preventing Juice Recipes: Naturally Lower the Risk of Alzheimer s disease without the use of Pills By Joe Correa CSN Alzheimer s disease is a disease that gradually destroys nerve cells and links between them. The greatest risk factor for this disease comes with age, the majority of people with Alzheimer s are 65 and older. However, I have to point out that it s not necessary to enter a certain age for the disease to develop. About 200,000 Americans under the age of 65 have what is known as early-onset Alzheimer s . Over time, the disease leads to communication and understanding difficulties, memory loss, and abnormal behavior including loss of interest and even aggression. Alzheimer s disease is an extremely serious disease and the sixth leading cause of death in the United States. This is why it s very important to recognize the symptoms without confusing them with a normal old age behavior. Alzheimer s disease, unfortunately, doesn t have a cure. However, there are some treatments for the symptoms that will not stop but will slow down...
