Mittal Publications, New Delhi, 2005. N.A. Book Condition: New. xiii + 265pp The goal of Analysis of Inorganic Chemistry is to teach the basics of the subject with a primary emphasis on facts, and then to use the student's growing factual knowledge as a basis for discussing the important aspects. This book lays emphasis on the primary facts of inorganic chemistry, and the author has organised the facts of chemical structure and reactivity of the inorganic compounds in a way that emphasises the descriptive approach to the subject. The book provides an authoritative account of every aspect of molecules of current interest and demonstrates progress that has been made in this subject in the recent past. It takes a tutorial approach to the use of analytical measurement techniques to chemistry, providing immediate guidance and advice to individuals in the course of their work.
