Brand New Book ***** Print on Demand *****.Excerpt from Spenser, the School of the Fletchers, and Milton But the boy Milton took some of his Spenser second-hand from contemporary Spenserians who, for the moment, loomed large because they were in the foreground. The juvenilia of great poets are almost always tinged with the intermediary influence of the poetæ minimi of the day who echo their masters with facile prettiness. So Keats, in his early work, took some of his Spenser with sugar and water from Hunt. By 1627 the names of Giles and Phineas Fletcher must have been prominent at Milton's own university, Cambridge, where he was a novice in poetry for seven years. The Fletchers seized upon subjects which were in the air. In an age of religious poetry they wrote quaintly and often beautifully, in ingenious and eccentric allegory, of the life of Christ and of the soul of man. They borrowed reverently, but with naive freedom, from the riches of *The Faerie Queene*, which they ransacked from end to end for allegorical figures, memorable lines, sometimes nearly whole stanzas. Over all they embroidered the curious, stiff conceits that were everywhere high in favor. They were enthusiastic imitators of the Spenserian stanza. As Spenser had given new music to the eight-line stanza by the addition of a final alexandrine, so the Fletchers experimented by adding the long line to the rhyme-royal, the ottava rima, and many other current from Spenser. I do not wish to defend them individually but to make a brief specimen list for the sake of general impressions.
