Way Station to Space: A History of the John C. Stennis Space Center

By National Aeronautics and Administration, Mack R Herring

Createspace, United States, 2013. Paperback. Book Condition: New. 254 x 178 mm. Language: English . Brand New Book ***** Print on Demand *****. Way Station to Space is a history of the NASA John C. Stennis Space Center, one of NASA's 10 Field Centers which was built in the enormously exciting days of the Apollo program for a specific purpose-to static fire and certify the huge Saturn V boosters used in the Apollo lunar landing program. With an eye to the future, the facility was planned as a national testing site for large propulsion systems that NASA might use for 25 to 50 years. This book provides the reader with a study of the Apollo era when NASA engineers, technicians, and managers were engaged in that fantastic mission. It captures a sense of the excitement and determination of the NASA team as it prepared for those historic journeys to our nearest planetary neighbor. This book, however, also illustrates the evolution of the south Mississippi facility beyond the Apollo era. The development of the traditions and pride of the NASA Government and contractor teams, formulated during those early years, is likewise portrayed. As is indicated in the text, few of...
