Pearson Education (US), United States, 2005. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. The Definitive Guide to Protecting Enterprise DataYour enterprise data is your most critical asset. If it s compromised, your business can be destroyed. Don t let that happen-leverage today s state-of-the-art strategies, best practices, and technologies and protect your critical information. In Data Protection and Information Lifecycle Management, leading industry consultant Tom Petrocelli presents a systematic, coherent approach to planning and implementing cost-effective data protection. This book introduces Information Lifecycle Management (ILM), a powerful new strategy for managing enterprise information based on its value over time. The author explains emerging techniques for protecting storage systems and storage networks, and for integrating storage security into your overall security plan. He also presents new technical advances and opportunities to improve existing data-protection processes, including backup/restore, replication, and remote copy. Coverage includes A complete, unique framework for considering and planning data protectionUnderstanding storage technology from the standpoint of data protectionArchitecting more effective backup/restore solutionsUsing remote copy and replication to keep data synchronized and support immediate failover to hot sitesLeveraging core computer security concepts and strategies to protect your most critical dataSecuring your entire storage infrastructure, not just serversUsing policy-driven data protection and Data Lifecycle Management (DLM) to improve security and reduce costUsing ILM to identify your highest-value data and choose the right ways to protect it Data Protection and Information Lifecycle Management is an indispensable resource for IT executives who must plan and implement strategies for data protection; administrators who must protect data on a day-to-day basis; and product managers, consultants, and marketers responsible for crafting superior data-security solutions.
