MACHINE LEARNING IN JAVA (PAPERBACK)

Packt Publishing Limited, United Kingdom, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.

Design, build, and deploy your own machine learning applications by leveraging key Java machine learning libraries

About This Book

- * Develop a sound strategy to solve predictive modelling problems using the most popular machine learning Java libraries
- * Explore a broad variety of data processing, machine learning, and natural language processing through diagrams, source code, and real-world applications
- * Packed with practical advice and tips to help you get to grips with applied machine learning

Who This Book Is For

If you want to learn how to use Java's machine learning libraries to gain insight from your data, this book is for you. It will get you up and running quickly and provide you with the skills you need to successfully create, customize, and deploy machine learning applications in real life. You should be familiar with Java programming and data mining concepts to make the most of this book, but no prior experience with data mining packages is necessary.

What You Will Learn

- * Understand the basic steps of applied machine learning and how to differentiate among various machine learning approaches
- * Discover key Java machine learning libraries, what each library brings to the table, and what kind of problems each are able to solve
- * Learn how to implement classification, regression, and clustering
- * Develop a sustainable strategy for customer retention by predicting likely churn candidates
- * Build a scalable recommendation engine with Apache Mahout
- * Apply machine learning to fraud, anomaly, and outlier detection
- * Experiment with deep learning concepts, algorithms, and the toolbox for deep learning
- * Write your own activity recognition model for eHealth applications using mobile sensors
