ADAM ATE WITH DINOSAURS (PAPERBACK)

New Generation Publishing, 2010. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.What is your opinion on the creation versus evolution debate? Are the first eleven chapters of Genesis myth, metaphor or literal truth? Can modern-minded Christians justify their attempts to reconcile biblical history with scientific theory? Did God create the Earth in six twenty-four-hour days or over millions of years? And do dinosaurs pre-date the first man? Christopher Tokeley s conclusions are uncompromising but based on a combination of extensive research and absolute faith in God s Word. Quoting from many sources, drawing on the work of scientists as well as theologians, he assembles a formidable body of evidence to support the literal accuracy of the Genesis account of creation. Darwinism, he argues, far from being unchallengeable fact, is a religion in itself. Scientific evidence suggests that our planet is several thousand years old, not millions or billions of years as we are taught in schools. Whatever you believe or want to believe, this book is guaranteed to make you think afresh. The author studied theology under Rev. Dr Ernest Kevan, BD, MTh, PhD, Principal of the London Bible College, while continuing his career in international trade finance. He has served on the committee of Christians in Finance, from their centenary in 1975, and is a member of CMI West Surrey Group.
