LAMBERT  
Academic Publishing

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Development of high power lasers opened a new era of scientific innovations. Now it is possible to study the matter properties under extreme conditions applicable to large number of potential applications. The field of laser-plasma interaction is very vast and wealthy in content. In this thesis we present three basic aspects related to the subject. We have developed a new model for laser interaction with solid targets which is applicable for the laser...
