## The Conservation of Textiles

By Harvey Gerald Elledge

Theclassics.us, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1921 edition. Excerpt: .When these dyes appear on wool or silk fabrics they should be laundered with neutral soap and warm water, the standard process recommended by the Department of Chemical Engineering of the Laundry owners National Association. Therefore, if the recommendations of this Department are carried out the trouble experienced with this class of dyes will be reduced to a minimum. It has been stated earlier in this chapter that one dyestuff may be listed under more than one class-heading, according to the method of application used and the affinity that the dyestuff exhibits for the fiber under the existing conditions. Some of the dyestuffs, notably the basic dyestuffs, that under the conditions described for direct dyes are not fast on the vegetable fibers become exceedingly fast and desirable when the fabric is given a mordanting treatment before dyeing. A mordant is a material that reacts...
