## The Malarial Fevers, Haemoglobinuric Fever and the Blood Protozoa of Man (Classic Reprint) (Paperback)

---

By Charles Franklin Craig

Forgotten Books, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from The Malarial Fevers, Haemoglobinuric Fever and the Blood Protozoa of Man While several excellent works dealing with the laboratory side of the subject have appeared within recent years, no complete treatise upon the malarial fevers has been printed in English since the author's work entitled The Aestivo-autumnal (Remittent) Malarial Fevers, published in 1901. Thayer's excellent monograph upon this subject in Allbutt and Rolleston's System of Medicine and the author's in Osler's Modern Medicine consider the subject but briefly from necessity, and the many important discoveries made in the etiology of these fevers, and the advances made in the prophylaxis of malarial disease during the past ten years are such as to justify us in the publication of the present work. The author has endeavored to record in this work all important advances and facts of interest to the student and clinician, and to this end has consulted a mass of literature, the most important papers being noted in the literary reference found at the end of each chapter. For many of these references I am...

### Reviews

*Basically no terms to explain. I have read and so i am certain that i will gonna go through once again once more in the future. I realized this ebook from my dad and i encouraged this book to discover.*

-- **Forest Little**

*An extremely awesome publication with lucid and perfect explanations. It is actually written in basic phrases rather than confusing. You will like how the writer publish this book.*

-- **Melody Jakubowski**
