Forgotten Books. Paperback. Condition: New. This item is printed on demand. 456 pages. Dimensions: 9.0in. x 6.0in. x 0.9in. Excerpt from Pumping Machinery: A Practical Hand-Book Relating to the Construction and Management of Steam and Power Pumping Machines The author has long felt the need, for his personal use, of a book similar to the one he now publishes, and had there been available a work covering approximately the same ground as the one now offered, the preparation of this volume would not have been undertaken. No apology is thought to be necessary for its appearance at this time, for, so far as I am aware, no other book similar in scope has been published in this country. This book, as will be seen upon examination, is essentially descriptive of pump detail; no attempt has been made to enter into the theory and mathematics of pump-construction. The number of leading pump-makers in this country is comparatively few, and such are well equipped for the designing and building of pumping machinery; but there is another and larger body, comprising engineers, architects, contractors, plumbers, etc., who have occasion to recommend and use pumping machinery, and who wish to inform themselves regarding pump construction, - it is for the benefit of this latter class that this volume has been prepared. This book being largely descriptive, its illustrations have been made a prominent feature, the writer regarding a single suggestive sketch of more real value than a page of reading-matter. With few exceptions, the illustrations are from pumping machinery actually constructed and in use, and those familiar with the authors work will not fail to recognize how large a proportion of the whole has been transferred directly from his own practice. Inasmuch as a large portion of this book has been in constant use by...
