Createspace, United States, 2004. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. The goal of this report is to describe how research and best practices from the human factors, human-machine and human-computer interaction, and usability engineering disciplines can be brought to bear to improve the usability and accessibility of voting products and systems. A major contribution of the report is a set of ten recommendations for developing standards, accompanying test methods, and guidelines that can measurably improve levels of usability and accessibility.
