## Geometrization of physical quantities

By Chizhov E.B.

Editorial URSS, 2011. soft. Condition: New. Fundamental and derived physical quantities are geometrized on the basis of the hypothesis of global stationary state of our Universe. A new (L) system of physical quantities based on a single quantity (length) is created and developed. Numerical values of seven base units as well as fundamental physical constants are calculated in the L system. We give a geometric interpretation of fundamental notions of macro- and micro-mechanics and explain a large number of physical phenomena of the macro- and micro-worlds, for example, the principle of uncertainty, the microwave background radiation, the black and white holes, the red shift of galactic objects, the Big Bang, the emergence of matter. Also, we estimate the speed of gravitation of the systems electron-electron, proton-proton, and others. \*\*\* Nota: EL COSTE DE ENVÍO A CANARIAS ES 11.49 EUROS. Si ha realizado un pedido con destino a CANARIAS no podemos hacer el envío con el coste actual. Nos pondremos en contacto con usted para comunicar el coste total del envío a Canarias y si está de acuerdo, Abebooks le efectuará el cargo adicional.

### Reviews

*This publication is definitely not effortless to get going on looking at but really exciting to read through. It really is rally intriguing through looking at time period. Its been written in an remarkably straightforward way which is just soon after i finished reading through this book where basically altered me, change the way i think.*

-- **Erna Langosh**

*If you need to adding benefit, a must buy book. It really is writter in straightforward words and phrases and not confusing. You will not feel monotony at anytime of your respective time (that's what catalogues are for concerning if you ask me).*

-- **Dr. Celestino Treutel**
