

mobile communications in space-time signal processing

By BEN SHE.YI MING

paperback. Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Publisher: Electronics Industry Publishing House Pub. Date: 2008-08-01 The book of mobile communication in space-time signal processing. first introduced the concept of space-time signal processing and is closely related with the development of mobile communication. then each channel of the space-time channel estimation and space-time. space-time channel capacity. space-time receiver processing. space-time processing and transport five blind space-time processing. covering the space-time signal processing. the main content and the latest developments. Book is intended for communications. electronics. automation. computer and related graduate students. teachers. researchers and engineers. but also the first semester as a graduate teaching book. Contents: Chapter 1 space-time signal processing concepts 1.1 mobile communication 1.2 One-dimensional communication signal processing limitations of 1.3 space-time signal processing concepts 1.4 book is organized References Chapter 2 space-time channel and signal model 2.1 mobile communication channel 2.1.2 Basic Characteristics 2.1.1 shadow fading effects of multipath fading and small-scale space-time 2.2 channel 2.2.1SISO channel 2.2.2SIMO channel 2.2.3MISO 2.2.5 Channel 2.2.4MIMO channel 2.3-channel multi-user ST-signal model of discrete space-time 2.3.1SISO discrete signal model 2.3.2SIMO discrete signal model 2.3.3MISO discrete signal model 2.3.4MIMO discrete...
