Is Darwin Right? or the Origin of Man (Classic Reprint)

By William Denton

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Is Darwin Right? Or the Origin of Man In this volume I present to the public substantially what I have been presenting in my lectures for more than twenty-five years, giving here, however, greater prominence to the spiritual origin of man; for the question of man s natural origin is generally decided in the affirmative, and the great question now is as to the means by which the result was naturally produced. The writings of Lyell taught me in youth that the present condition of our planet is the result, not of miraculous achievement a few thousand years ago, but of the operation of natural causes during many millions of years. The Vestiges of Creation first led me to believe in man s natural origin; and my own investigations in mesmerism, spiritualism, and psychometry, showed me the defectiveness of the theories advanced by Darwin, Huxley, and others of the natural selection school. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of...

Reviews

I actually started out looking at this publication. it was actually writtern really perfectly and useful. Its been written in an extremely simple way and it is only soon after i finished reading through this pdf by which really modified me, change the way i really believe. -- Breanna Kerluke

A must buy book if you need to adding benefit. it was actually writtern quite perfectly and beneficial. You wont really feel monotony at anytime of your time (that's what catalogs are for regarding in the event you question me). -- Kian Jacobi
