In the plan herein adopted will be found all the essential rules and directions contained in our former instruction book, first published in 1867, entitled the Family Dress Guide, besides many important additions suited to the advanced stage of the Art, and specially applicable to garments of modern style and construction. The chief object of the miniature method of drafting, designed to be used and applied in connection with the elementary rules of this work, is to facilitate the teaching of this science in schools and classes, as also to reduce the labor and time required in imparting instructions. The diagram illustrations herein given are intended to impress the mind of the pupil in advance with the general plan and outline of the garment to be drafted, this rendering subsequent labor easy and intelligible. In conclusion, as a matter of special importance to the rapid advancement of the pupil, the author would urge a strict adherence, while under instructions, to the use of the Miniature Dress Guide and the average measures as printed on the diagrams.
