Roald Amundsen's *The South Pole* is a detailed, even exhaustive account of his successful 1910-1912 expedition to the South Pole. Amundsen's expedition was the first to reach the South Pole, after failures by other expeditions. Amundsen was relentlessly methodical and practical in planning and executing the expedition. He identified a practical method of travel for the long haul to the South Pole from the Antarctic coast: dog sleds and skis. He and his crew experimented and tested all their equipment and supplies in the Antarctic while patiently waiting for the right weather to travel. In striking contrast to his British competitor, Robert Falcon Scott, Amundsen correctly estimated the amount of food that would be consumed by physically active men operating for weeks in sub-zero temperatures. His story is one of the greatest tales of this age. In this book we hear in his own words the story of that rarest of plans - the perfectly executed coup. For a coup it was. When Amundsen turned from the North Pole to the South after the question of the great nail had been settled by Cook and Peary, his decision was treated in many sectors (most notably by the British Press) as underhanded and double dealing. Amundsen's account of the reasoning behind it makes clear that any deceit was necessary to ensure no forestalling of his plans by others - not only Scott. To ensure the future of his extended plan (the drift across the Arctic which was eventually carried out in the *Maud*) he knew the Press Barons would need an exclusive and juicy story. The South Pole would give him this currency. The book is written in an honest and clean...
