In the 1980s, when computers were still early in their evolution, Steve Jobs marketed the concept of laptops to the world. He passed the torch of creativity to people like Elon Musk, who is on a mission to create a colony for humans on Mars. Innovators like Jobs and Musk rarely get support from market research; in fact, they're usually slowed down by it. But somehow, they manage to guide themselves, live in the moment, and make the world a more creative place. In this guidebook to finding your own inner guru, you'll peer into the imaginations of history's greatest inventors and entrepreneurs. Explore how to do the following: --Stay abreast of advancements in technology while being rooted in human nature --Develop your creativity, imagination, and intuition to pursue original ideas --Maximize your potential while meeting the demands of a fast-paced, dynamic, and performance-driven lifestyle.
