Brand New Book ***** Print on Demand *****.Excerpt from Zoology Lecture Delivered at Columbia University in the Series on Science, Philosophy and Art, December 11 And they must realize also how impossible it is for them to conduct their operations at all times in entire independence. The results of physics and chemistry are indispensable weapons for the biologist; geology takes the field with paleontology for the study of fossil forms; while on the other hand the advance posts of zoology provide the students of many a human science with a secure base of operations. I need not speak of the inter-relations of the several biological sciences, for these have been sufficiently explained in the earlier discourses. I shall pass directly to a description of the elements of the present science of zoology and of its history, so far as this is necessary for a clear understanding of the various divisions of the subject and of their connections; and finally I shall endeavor to show how through its human materials zoology articulates directly with other fields of knowledge. Zoology is the science that deals with...
