Excerpt from Elements of Dynamic, Vol. 1: An Introduction to the Study of Motion and Rest in Solid and Fluid Bodies; Kinematic; Book IV. And Appendix I have sufficiently explained in my letter to Mrs Clifford (see Mathematical Papers) the reasons which led me to accept the responsibility of editing the following fragments. A few words as to the fragments themselves may not be out of place here. The first 56 pages are contained in 43 pages of ms. These are carefully written out and paged, and in the form in which they are left may be considered as nearly representing that in which they would have been given to the world by Clifford himself.
