Bibliogov, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Pursuant to a congressional request, GAO provided information on the Federal Aviation Administration s (FAA) access control systems, focusing on the: (1) cost of FAA access control systems; and (2) actions FAA could take to ensure that access control systems are cost-effective in the future. GAO found that: (1) FAA greatly underestimated the costs of its access control systems, due to the installation of more expensive equipment; (2) in many airports, FAA approved the installation of equipment in areas that did not need to be secured; (3) 21 major airports had to replace or significantly modify access control systems that did not meet FAA requirements; (4) FAA officials have been unable to ensure that Airport Improvement Program funds have been used only for those system components necessary to meet FAA access control requirements; and (5) FAA could help ensure that access control systems are cost-effective by providing detailed guidance on how systems should function to meet access control requirements.
