

Gnosis (Paperback)

By Ian Cawley

Ian Cawley, United Kingdom, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. How far would your conscience take you? In a world increasingly disturbed by the Climate Change Phenomenon, and with overwhelming economic refugee migration, Max Harrington's conscience led him to create GNOSIS; a computerised management system to regulate energy and fuel consumption around the globe. His vision was of a cleaner, fairer and healthier world. What he didn't see, however, was that the big data created would become a far more valuable prize to those less bound by conscience. This political thriller, set in the digital age, follows a trail of murderous clues, running from the academic fields of Cambridge, through the powerbrokers of Westminster and into the war-torn desolation of the Holy Lands.
