By Timothy Good

PEGASUS BOOKS, United States, 2014. Paperback. Condition: New. Reprint. Language: English . Brand New Book. This fascinating new volume tells the story of contact between aliens and humans from all across the globe, dating back to 1932, including meetings with military personnel and American presidents such as Eisenhower and Kennedy. For the first time, a former member of MI6 reveals her conversation with Neil Armstrong at a NASA conference, when he confirmed that there were other spacecraft on the Moon when Apollo 11 landed in 1969. Armstrong also confirmed that the cia was behind the cover-up. In a further admission in December 2012, Russian Prime Minister Dmitry Medvedev revealed that the president of Russia is given a special top secret folder [that] in its entirety contains information about aliens who have visited our planet. Along with this, the president is given a report of the Special Service that exercises control over aliens in our country. I will not tell you how many of them are among us because it may cause panic.

*Thorough guideline! Its this type of good read. It is really simplistic but shocks from the 50 percent from the publication. It is extremely difficult to leave it before concluding, once you begin to read the book.*
