I N T R O D U C T I O N How to Write Software Project Plans is a plain-english, simplified version of IEEE 1058 - Standard for Software Project Management Plans. The project plan documents the planning work necessary to conduct, track and report on the progress of a project. It contains a full description of how the work will be performed. The benefit of using this how to guide is the consistency of presentation, enabling management to assess the plans, for their merits or limitations, more readily. In particular this how to guide specifies the format and content for a project plan by defining the minimal set of elements that shall appear in all project plans (additional sections may be appended as required). The project plan includes the: - scope and objectives of the project - deliverables the project will produce - process which shall be employed to produce those deliverables - time frame and milestones for the production of the deliverables - organisation and staffing which will be established - responsibilities of those involved - work steps to be undertaken - budget S C O P E How to Write Software Project Plans applies to the medium to large scale software development projects. O B J E C T I V E S How to Write Software Project Plans allows the project manager to: consider all relevant aspects of the project, ensuring they will be considered during the project planning stage produce project plans with consistent content and format clarify the objectives, deliverables and manner of execution of the project Contribution to IS Quality. The literature of software quality widely recognises that up to...
