But then, on the other hand, it must be remembered also that in the States grade crossings, stretches of single line, absence of proper As to this speed for single miles I shall have something to say in the next chapter. Meanwhile, I would ask my readers not to attach too much importance to the statements in the text. signalling arrangements, and so forth, compel many slacks and halts of which we in England know nothing. Let us see how the two trains compare when this is deducted. The Midland spends 44 minutes in six intermediate stops. What the West Shore special did is, however, not quite so clear. As given at the time by the leading American railway paper, there were 20 stops (including 6 crossings and 5 detentions by trains or block signals) amounting in all to 1 hr. 34 min. On...
