Nova Science Publishers Inc. Hardback. Book Condition: new. BRAND NEW, Ergonomics: Design, Integration and Implementation, Bram N. Brinkerhoff, Ergonomics is the science of designing the job, equipment, and workplace to fit the worker. Finally, ergonomics and epidemiology in evidence based health prevention are discussed in this book. The ergonomics that can contribute to the common development of public health and occupational preventive methods are explained. In addition, two recent foot movement studies for foot controls are reviewed, in order...
