W W Norton Co Ltd, United States, 2014. Paperback. Book Condition: New. 208 x 137 mm. Language: English . Brand New Book. A work that deeply reconceptualizes the New Deal and raises countless provocative questions (David Kennedy), *Fear Itself* changes the ground rules for our understanding of this pivotal era in American history. Ira Katznelson examines the New Deal through the lens of a pervasive, almost existential fear that gripped a world defined by the collapse of capitalism and the rise of competing dictatorships, as well as a fear created by the ruinous racial divisions in American society. Katznelson argues that American democracy was both saved and distorted by a Faustian collaboration that guarded racial segregation as it built a new national state to manage capitalism and assert global power. *Fear Itself* charts the creation of the modern American state and how a belief in the common good gave way to a central government dominated by interest-group politics and obsessed with national security (Louis Menand, *The New Yorker*).
