Forgotten Books, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Application of Some General Reactions to Investigation in Organic Chemistry Probably every student of organic chemistry, at some period of his career, becomes more or less over powered by the immense mass of detail which he encounters, and it is only as he is able to apprehend the fundamental principles and generalizations under lying these facts that he can emerge from the labyrinth. The topics considered in this latest little book of Professor lassar-cohn are Of considerable importance, and have hitherto failed to receive adequate treat ment in other works. It is hoped that the volume may prove useful to students who are threatened with the difficulty/ mentioned above, and also that it may appeal to teachers and others engaged in research work, both on account Of the broad, suggestive discus sion Of the subjects which it embraces, and also because it includes mention Of numerous themes which demand.
