The Transformation of British Naval Strategy: Seapower and Supply in Northern Europe, 1808-1812 (Hardback)

By James Davey

Boydell Brewer Ltd, United Kingdom, 2012. Hardback. Condition: New. Language: English . Brand New Book. After the Battle of Trafalgar, the navy continued to be the major arm of British strategy. Decades of practice and refinement had rendered it adept at executing operations - fighting battles, blockading and convoying - across the globe. And yet, as late as 1807, fleets were forced from their stations due to an ineffective provisioning system. The Transformation of British Naval Strategy shows how sweeping administrative reforms enacted between 1808 and 1812 established a highly-effective logistical system, changing an ineffective supply system into one which successfully enabled a fleet to remain on station for as long as was required. James Davey examines the logistical support provided for fleets sent to Northern Europe during the Napoleonic War and shows how this new supply system successfully transformed naval operations, enabling the navy to pursue crucial objectives of national importance, protect essential exports and imports and attack the economies of the Napoleonic Empire. BR> The Transformation of British Naval Strategy is a detailed study of national policy, administrative and political reform and strategic viability. It delves into the nature of the British state, its relationship with the private sector...
