By following the practical steps and the meal plan recipes that author Joel Fuhrman describes, type 1 diabetics can reduce their insulin dependence and type 2 diabetics can defeat their disease altogether, ending their reliance on insulin and other medications entirely. Every year, the population of diabetics in the United States grows. In large part, this concerning and costly trend can be prevented and even reversed. By 2012, approximately 90 percent of American diabetics had type 2 diabetes, the form of the illness that is almost universally brought on by obesity and poor nutrition.
