AGENTS AND DATA MINING INTERACTION

Springer-Verlag Gmbh Sep 2010, 2010. Taschenbuch. Book Condition: Neu. 0x0x cm. Neuware - Currently a plethora of heterogeneous, standalone or web-enabled applications exist providing various functionalities that could be exploited in innumerable contexts for the development of personalized agent-based solutions for the end user. The integration of these applications in a standard and seamless way to enable content-rich services for the end-user is not generally feasible. The main reason for this is that these applications are by nature heterogeneous, developed for...

Reviews

It is one of my personal favorite books. It is written in easy terms and never hard to understand. It has been designed in an exceedingly easy way and it is only after I finished reading this publication by which in fact changed me, change the way I think.
