Reviews

This ebook is worth purchasing. It is written in straightforward words and not hard to understand. You will not feel monotony at any time of your respective time (that's what catalogs are for about in the event you ask me).

Therefore he thought it was well worthy the consideration of shipbuilders. As regarding economy, he had heard that it gave a saving in the labour of about 50 per cent.; that he had grave doubts about. But if it enabled them to make better work, although there might be no saving in the labour, that was sufficient to recommend it for general use. Mr James Williamson remarked that he had seen the machine at work twelve months ago, and he was extremely pleased with it. It was then bevelling large angles for a 2000 ton sailing ship, of 5 by 3 A by 8, and they were levelled quite easily with one heat, and were set to the shape at the same time. The work was most excellent. One or two things had struck him in connection with the strength of the machine. It appeared to him rather slight; but he observed by the diagrams that the wheels had been strengthened, and thus met the difficulty that he could see would have occurred. If the machine were made strong enough it would prove to be one of the most perfect machines that he had ever seen in a shipbuilding yard. He had to compliment Mr Kamage on the paper; and while the machine might look rather complicated, he could assure the members...
